SECTION I – ABOUT US

City of Phoenix Arts and Culture Department

The Arts and Culture Department was established in 1985 to champion and sustain the City's arts and culture community to make Phoenix a great place to live, work, and visit.

Our Commitment

The Arts and Culture Department believes in fair treatment, access, and opportunity for all individuals. Our equity strategy aims to identify and eliminate barriers that have prevented marginalized groups' full participation from the agency's programs and to strengthen equity, diversity, and inclusion in the arts and culture sector for all Phoenix residents.

The City of Phoenix fully endorses and supports the concept of equal business and employment opportunities for all persons, regardless of race, color, age, sex, religion, national origin, genetic information, marital status, disability, sexual orientation, or gender identity or expression.

Land Acknowledgement:

The Arts and Culture Department acknowledges that modern-day Phoenix is on the traditional lands of the Akimel O'odham (Pima) and the Tohono O'odham and before that their ancestors (Hohokam) as well as the Pee-Posh (Maricopa). We honor the elders of both past and present, as well as future generations that enable us to live here today. Further, we acknowledge the sovereignty of the [22 Tribal Nations](#) who continue to steward the lands that make up the state of Arizona.

SECTION II – SCOPE OF WORK AND PROJECT DESCRIPTION

The Arts and Culture Department, in collaboration with Phoenix Sky Harbor International Airport, seeks to commission **signature works of art** as part of the construction of a new Terminal 3 North Concourse **that acts as a front door for travelers to the city and state**. The project offers several opportunities to integrate major artworks into the building architecture and create stand-alone landmarks that can be experienced from multiple perspectives inside the terminal. **The selected artists/artist teams will be required to work closely with the design team to incorporate the artwork into the terminal design** and construction documents.

The Arts and Culture Department seeks applications from professional artists, and artist teams, working in a variety of media and artistic approaches who will be responsible for the design and implementation of the artwork.

General locations for artwork have been identified however final placement of artwork will be determined based on a collaborative design process. The content of the artwork must be suitable for public consumption and should avoid political statements.

Artwork Opportunities

Terrazzo Flooring

Terrazzo flooring will be used in multiple locations throughout the project including the Concourse, Terminal 3 Connector Bridge, and Terminal 4 Connector Tunnel. Artists commissioned for these opportunities will be responsible for the design of the flooring and oversight during construction; the flooring will be installed by the general contractor.

Concourse

The new concourse will be approximately 140,000 square feet of floor area, over three levels. The passenger level (located above the apron level which provides support functions to airlines) contains gate lounges, concessions areas, restrooms, and other public-facing amenities.

Artwork located in the passenger level of the concourse could include suspended artwork that incorporates acoustic solutions, digital or technology-based artwork, glazing, and interior wall treatments.

Terminal 3 Connector Bridge

A pedestrian bridge will tether the new concourse with the existing Terminal 3 processor (or lobby). The bridge is approximately 30,000 square feet of floor area and blends into the massing of the new concourse. It allows for exterior views of the surrounding mountains to the north and visual connectivity to processor, reinforcing a sense of place. **Artwork located in the bridge could include glazing, suspended artwork, interior wall treatments, sound, and digital and technology-based artwork.**

Terminal 4 Connector Tunnel

A pedestrian tunnel will provide a secure side connection between terminals, spanning over

1,000 lineal feet. The tunnel will enhance the passenger experience with a direct pathway between the new Terminal 3 North Concourse and Terminal 4 North Concourse. **Artwork located in the tunnel may include lighting, glazing (at connection points), interior wall treatments, suspended artwork sound, and digital and technology-based artwork.**

Artwork Goals

Artwork commissioned for these opportunities must meet the following goals. The artwork should:

- Elevate the passenger experience with bold artistic statements that reflect and celebrate the unique culture of Arizona
- Make traveling more enjoyable by creating immersive and memorable spaces
- Support the project’s goal of creating a sense of place with a “light and bright” ambiance
- Utilize resilient and sustainably sourced materials
- Seamlessly integrate into the architectural design of the airport expansion

About Phoenix Sky Harbor International Airport’s new Terminal 3 North Concourse

The Phoenix Sky Harbor International Airport welcomes over 130,000 passengers every day. The new North Concourse at Terminal 3 will be approximately 140,000 sq ft over three levels and will add six gates to the terminal. In addition, two new connectors will link the new concourse with Terminal 4, and other areas of Terminal 3, for easier transfers. These new gates and their added capacity will significantly improve the overall operation of Terminal 3.

The experienced design team of HOK and DFDG Architecture is charged with creating a faster, easier, and more enjoyable travel experience for all passengers in the concourse with an emphasis on maximizing the exterior views of the surrounding mountains. The design of the concourse will include a central marketplace and feature an abundance of natural light. The design is currently in the schematic phase.

The vision of this project is reflected through four key characteristics that define the experience and operation of Terminal 3. These characteristics will be achieved through a simple, intuitive, and humble design concept.

1. Provide a great user experience for passengers and staff
2. Design for flexibility and future-proofing
3. Develop a holistic sustainability approach
4. Leverage technology-driven innovation

Estimated Budget

The all-inclusive budget for the Phoenix Sky Harbor International Airport Terminal 3 North Concourse public art projects, in total, is not to exceed \$4,250,000. This includes all costs related to the completion of the project, including but not limited to, community outreach, design development, structural engineering, fabrication, and installation of the artwork.
